

# NOAH VAN BOVEN

Junior Front-end Web Developer

## Profile

My name is Noah and I love programming and mathematics. I started programming 5 years ago and have loved it ever since. I've already written a variety of simple and complex sites, and I love expanding my horizons with each project.

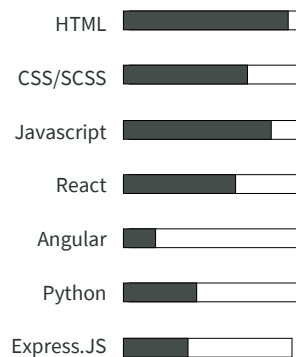

## Work Experience

### ● **De Praktijk Index** / Video Editor & Web Developer

May 2018 / Present

I worked at this company to create tutorial videos for their software. I also helped with creating a website that could show the death certainty for some given information about some patient.

## Skills

## Education

### ● **Corlaer College VWO 4** / High School in the Netherlands

October 2015 / Present

This is the school where I will get my high school diploma. I am currently following an N&T profile. Which includes subjects like Maths B, Chemistry and Physics. I also follow Cambridge English.
